

Andrew Woodward
Corporate Technical Director and
Regional Director Qatar –
Plus 3 Partner

Experience Summary

A dedicated senior executive with a solid background established from working with major UK contractors within the civil engineering, infrastructure and construction sectors. Andrew has a proven track record of delivery, secured on complex construction projects from operating as Senior Project Manager and Project Director through to Managing Director level, delivering projects to both blue chip private clients and government agencies.

Andrew has particular expertise within the dispute field, having been party to disputes (both adjudication and arbitration) as a contractor. He holds membership as a Fellow of the Institute of Arbitrators and has provided, quantum, delay, disruption and contract management advice to contractors on large-scale infrastructure projects across Europe and the Middle East. Andrew has also been cross-examined at tribunal under ICC rules as Party Appointed Expert Witness on matters of quantum, delay and construction management.

Highlights
